Hon. John Bell spoke for about three quarters of an hour, stating in effect that so far as present duties and responsibilities are concerned the past is a scaled book. He connected the most effective and energetic public and private measures to secure the hest ie and private measures to seeme the heat

Mr. Bell was followed by Hon. Edwin H Mr. Bell was followed by 100n. Edwin H. There is yet much necessary preparation to be made. Nothing should be left undone by any individual in the community that can be done towards facilitating these preparations, and making them as repid and formidable as possible. The South has to meet an enemy superior in numbers and resources—a people united and determined. But the tace is not always to the swift, nor the bardle to the strong. Nevertheless, the South has need of every arm in her borders, and that arm nerved with a full appreciation of the justice of its cause, and the danger which threatens. The battle for Southern rights and Southern institutions against Northern prejudice and Northern functions, so often contested in verbal combat, is now a battle of man to man—

WAR RUMORS. Condition of Washington.

Condition of Washington.

[From the New York Times.]

A gentleman who left Washington at half-past four o'clock on Saturday moroing, informs as that the general belief in that city in the best informed circles, was that Jefferson Davis was on his war North—at the head of a considerable lorce, which he was angmenting on the way. As all communication by tebegraph with the South has been cut off, it was impossible to procure any positive information on this subject; but it was considered heyond dispute that he was en route for the Capital and not very far from it at the present time.

Our informant states that the railroad bridge at Canton, two or three miles out of Raltimore, on the road to Washington, was burning as he came through, and that the telegraph wires were also destroyed at that place. Baltimore, he states, seemed to be in a perfect whirlwind of excitement.—Thousands of people througed the streets, who appeared to have lost all control of themselves, and were more like flends than human beings. At that time the military and police had not, apparently, established any anthority over the city. At 1 o'clock our informant left Baltimore by a propeller through Elkton Canal. He met two barges which seemed to be filled with troops, though not many were visible, as they were all honsed. The captains of the barges, on being hailed, denied that they had troops on board, but the gentlemen on the propeller were confident from what they heard that there were not less than 1,760, and that they were of the Pennsylvania Volunteers.

The road from Philadelphia to Baltimore is completely interrupted—no trains passing over the road at all. The long bridgeover Gunpowder creek—a mile long—is burued, and the smaller ones on each side are also destroyed. CONDITION OF THE CAPITAL. We learn from the best anthority, that on Friday last, there were in Washington on Friday last, there were in Washington 8,000 troops, whom the commanding officer considered perfectly reliable for any emergency. It was also stated that the officers of the Government expected, by Tuesday evening next, to have 25,000 American troops under arms at the capital. It is believed that this Isrce will be ample to keep in check, until further reInforcements can arrive, any force that can be brought a sainst them.

They were presented to this city by the Governor of Arkansas. As the Little Rock neared the city, Capt. Harbin fired fifteen guus—one for each Southern State. or each Southern State.

The people of Washington were unite generally apprehensive of an attack on that city. But members of the Calinet influented that they had no reason to credit the rumors which had begen to assume a formidable shape, to the effect that Jeff Davis and a large Southern army were on route to attack Washington. Mr. L'llommedieu was assured that the city was well fortified and guarded at all points; and that the arrival of full regluents of Northert troops, then hourly expected (and which have since legun to be realized), would soon enable the Hovernment to wilhstand with an overwhelming force any assault which mighs be made.

The commanders, who are well known as true, intelligent, and able men, have likewise been instructed not to permit the near approach of any suspicious vessels and all the officers are known to be estaunch and true to their owners, and to the American flag. Their crews and ifremen are composed of men, many of whom have longliffer their ecuntry in the Mexican war, and consequently well versea in the use of arms.

For several days past reports have been circulated in this city that a fight took place at Fort Pickens on Wednesday or Thursday of last week, and that the rebels were defeated with a heavy loss. We have now a confirmation of the main feature of the above statement. Mr. J. J. Clark, drunchagior at Newport, has received a letter from his son, who is drum-major at Fort Pickens, which says that on the 17th inst., Fort Pickens was unsuccessfully attacked by the Secession forces, who were thriven back with a loss of thirty-three men. ARBITRARY POWER IN A SINGLE COMMANDER IS INDISPENSABLE.—

Not, as our Mayor advises, in the hands of a civil officer. A STATE OF WAR REQUIRES THAT THE SUPREME COMMAND SHOULD BE IN A WAR OFFICER. To make the Mayor a Dictator would only create a conflict between his authority and that of the military. Besides, it cannot he done. The Mayor's powers are prescribed by the act of incorporation. He cannot be given extraordinary powers, although he can be supplied with extraordinary means. THE MILITARY, IN A TIME OF WAR, HAVE THE AUTHORITY TO EXERCISE SUPREME POWER. The rivil power is then in its proper position, when backing the military with its means.

with its means. The Home Guard should also shed all the encumbrances of committees, and get as soon as possible into military shape, and in readiness to respond promitly to any order of the chief commanding officer of the city. A system of signals should be provided for assembling them, and their quarticles constantly occupied by a guard. BEligations imposest upon them by its terms—the Union would have been, as it was hoped it would be, perpetual.

The Constitution was a compact between the States, and a wanton and persistent violation of the solemn agreement by a portion of these states, released the others from their obligations. A bargain broken on one side is a bargain broken on all sides, lawyers tell us.

We learn that fifty connons have been Why this powerful organization in that city? For defense? Who threatens it? From what quarter is dauger appreliended? Aud at Cairo, too, there is a military amp. At Cairo thousands of Black Republican soldiers are under arms, drilling nd getting ready for "any service."

Thus events have progressed. The cloud not larger than a man's hand overcasts the heavens. From the acorn has grown a tree. We cannot recall the past: we may retrieve its errors. Let us act at once. The River continues falling very fast, with tally twe ve feet water on the falls last evening. During the previous twenty-four hours the river had fallen three feet at the head of the falls and six feet at Portland. The weather was clear and rathercool, caused by a very heavy storm of rain, with lightning the night previous,

At Cincinnati, at noon yesterday, the

inver had fallen five feet, and at Pittsburg it was falling slowly, with eight feet four in hes water in the channel.

The Cumberland, at Nashville yesterday, was falling fast, with less than fitteen feet water on the shoals. The Pedand had arrived from the Ohlo, and the Ida May is due from Nashville.

The Conewago arrived from St. Louis yesterday with a bit of hemp for this war.

The Conewago arrived from S. Louis yesterday, with a bit of hemp for this market. She had munitions of war for Cincinnat. Including eighty-eight kegs of shor and a quantity of lead. She was at the wharf several hours, and said contraband could have been very readily appropriated, but our people would not attack the delenseless. The Time, Captain Johnson, having

been detained, takes her departure to Florence, and all laudings along Tennes-see river this morning. She starts at 9 o'clock, having a large lot of salt on board. The Commercial, Capt. Archer takes for departure to Memphis, and all way shaces this evening. She is loading at the

The Atlantic from New Orleans, as we learn by dispatch to Sherley, Bell & Co., passed Memphis Tuesday evening. She will be due to-night, and returns to New Orleans direct on Saturday. She will be unable to ascend the falls.

CAIRO INVADED-RIVER BLOCKADED-CABBI IN ACCD—RIVER BLOCKABED— BOATS LANDER THE GUNS OF AN ABOLL TION HORDE.—By special disputches from Cairo and Paducsh yesterday, full confir mation of the facts of the Northern inva-sion at Cairo were detailed to us. Some 2,000 or more troops had concentrated at hoat point, and on Tuesday evening the Bedtie, from New Orleans, was compelled to come to, by can fixed cover be because ome to, by gans fired across her bow the armed mob. We did not learn ther the boat and passengers wer

whether the boat and passengers were robbed or not.

The Diana, Capt. Storg sen, cleared for New Urleans last evening, basing a large amount of pork and lard, re-glipped from Kentucky rever from the Love. It is the property of Mr. Macklin, of Frankfort, Kentucky, and is destined for Entope, we believe.

Capt. Sturgeon received dispatches from from what was considered good stating that the blockade at st. Louis, from what was considered good authority, stating that the blockade at tairo was only to prevent the passage of Southern troops and munitions of war. The assul articles of trade and commerce would be permitted to pass as usual. We, however, having no faith schattver in the greeent Administration, believe the mish at Cairo. like the mole at Cincinnati, will appropriate everything they can lay their hands upon. They have started out on a fanatical crusade with the cry that the American flag has been humbled and insulted, when it fact it has received all honor from the South, and lits only desertation is now while in the hands of Northern Vandals who are trying to subjugate their Southern brethren.

The new incumbent is Harry Parmele, a very clever, deserving, and competent man, who is well qualified for the office, having been steamboat clerk for many years, and is conversant with all the duties of the position. He is well and favorably known by nearly all river men, and is sure to give general satisfaction. The Woodferd, Capt. Mose Irwlu, will be brought to the wharf this morning. The Mississippi, at Memphis on attirday, was rising at the rate of four noise in twenty-four hours, and it was ben within three feet of high water mark. At the cola it was within righteen inches of the flood of 1858. Above Vicksburg the river had overflowed the shiees.

Elijah Fort, the porter on the Telegraph No. 3, found a roll of money on the roat, amounting to \$285. It belonged to passenger from Madison, who had droped it on the guard, and knew nothing of his loss notif inquiry was made by Capt Mildreth. The porter, who is a free ne-gro, had promptly handed the money to the Captain, stating he had found it. The atter, on ascertaining the rightful owner, banded the mouey to him. The latter rewarded the houest porter with a present of three dellars. That was a poor encouragement to honesty.

The past week has been one of exchement and but little has been done in the commercial world. The piratical Abolitionists of the North are stealing all the produce and provis-ons destined for Lonisville and the Sonthern markets. Floor is firm, with however, but a small demand for shipping, and during the past week only 1.645 libls have been sold. We qua v grades. The receipts of wheat the pasweek have been very light, yet they are fully equal to the demand. Buyers and dealers are ot disposed to purchase largely. The marke oves dull at 950@\$1 10 for prime red an white. The demand for corn is very small, be ng almost entirely for feeding. We quote the market very quiet at 45¢ for shelled, sacks in uded. There is nothing doing in outs, and

notations are nominal. During the past week there has been louistle doing in groceries, but the market close rm. The demand for sugar has been almo tirely for the home trade, and the sales hav cen limited at 6% @7%¢ for the various grades There has been but little doing in molasses and the market closes dull at 31@324 for libi

and 33@347 for half bbls. The demand for offee is good, and the market closes firm at 3%@11; for prime Rio.
The provision market last week closed ve rm, with an upward tendency lu prices. The demand for pork was good, and over 200 bbl city packed mess pork were sold at \$17. At the ose of the market there was considerable tall bont advancing prices, thou none was estab lished. This week the market opened of Thur-day quiet, with a strong disposition both on the part of buyers and sellers to hold off, and con quently no transactions were r

orted. On Friday the market opened ve much unsettled, with no disposition to o erate, and the sales were limited at \$17 00 fo city packed mess pork. On Saturday there we no change in the market, and at the close was unsettled. On Monday the market onene ery active, with a good demand for mers purk, and prices advanced fully 25¢ \$ bbi, the mar and \$17 for country packed. At the close of the market holders were not disposed to sel at the advanced price. Yesterday the provision market was active, with a large deman for mess pork at the advance established the day previous, but early in the morning an a vance of 25? P bbl was established, and th sales were limited to some 200 bbls at \$17 2 This advance was readily followed up by herers, and over 900 bbls were sold at \$17.50. In the evening another advance of 25¢ was esta ished, but the sales at \$17.75 were timited t New Wharr-Master.—Our war-worn ceteran, Capt. Diller, has been rotated out at the office of wharf master, the post he has silled so loug, and we might add so well and not anxione to sell even at that price, as the

prospects of a very large demand are very favorable, and the stock is light. Some of the packers are holding their stock ont of the ma week on Sonthern orders has been good, and an advance of fully 1/4 c was established during the week. The sales were nearly 1,000 casks at 7%¢ for shoulders. 9%¢ for rib sides, 10%¢ for clear rlb, and 11¢ for clear sides. There has been nothing doing in bulk meats or lard. To day the provision market was quiet, with but little doing. We quote nominally at \$17

The Picayune of Saturday says:

The exchange market has sink rapidly this week, but having regularly noticed the daily phases, it only becomes necessary to state its conditional the close. The only transaction is sterling this morning was a batch of £15:000 Bank of England acceptances equal to about Twenty-days sight at 108. It is needless to say that no bill of equal repute can be made, and taking this into cancideration the rate is equivalent to 101 for first class sixty-days. But it was impossible even to negotiate at this figure. Nobody would buy, and we doubt march whether 1 or 2 at cent less would have hought out a luyer. There is no saic for hill of tading drafts. First class france are selling in driblets at 5:30. The effect of a large transaction, drawers would have to submit to 57.45 (25f 40, provided they could negotiate at all. There is no saic at all for sixty-day bills on the North. Sight. In the afteenees of all demand, is yielding daily by quarters. Some was sold at 3 disconot. An other for a round amount at this figure would have drawn forth a supply of AI cheeks. But nobody was disposed to make it. The course of exchange points to a new import of coin, if it can be got here without undue risk. The Picayune of Saturday Pays:
